What is a 10000 mAh power bank?

A 10000 mAh power bank from Mi is a must-have that can deliver enough power to charge your favorite devices. It comes with a portable design that will keep your smartphone or tablet charged up anytime, anywhere. It has a capacity of 10000 mAh and comes with a triple USB output (2 USB-A and 1 Type-C), allowing you to charge two devices simultaneously.

How fast does a 100000mAh power bank charge a phone?

The 100000mAh power bank is able to charge your phone at 1.5 times faster than your original charger. This means you can charge your phone 3 to 5 times faster than you would normally be able to with your original charger. This means that if your phone has a 10000mAh battery, it will charge your phone in around 1 to 2 hours.
