Which frequency inverters are suitable for control cabinets?

No matter where you are in the world, our drives are your solution. We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors and meet all customer requirements thanks to a wide range of custom options.

How much power does a control cabinet inverter have?

Our inverters for control cabinet installation have a power range from 0.33 to 215 HP and can be customized with optional plug-in modules. Variable cooling solutions ensure optimum heat dissipation. Why Control Cabinet Inverters From NORD? High Performance NORD inverters for control cabinet installation provide high precision speed control.

What is a 1500V solar inverter?

This 1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters for large photovoltaic plants and are interested in reducing installation time and the overall complexity of the plant to enhance power production and performance.

How much power does a Nord control cabinet inverter have?

NORD control cabinet inverters have a power range of up to 215 HP and thanks to their wide range of functionality can be perfectly adapted to many customer applications. NORD Frequency Inverters already meet the requirements of energy efficiency classification IE2 of the new Ecodesign directive (EU) 2019/1781 (valid from 1st of July 2021).

The Sunny Central UP Plug & Play System combines central inverter, transformer and storage solution in a compact unit. In addition to facilitating transportation, the system enables fast and ...

Preferred method is Vertical mounting such that the Front Panel Display is at user's eye level. For Vertical

configuration, the Floor Mounting Bracket must be removed from the Inverter Cabinet. ...

Solis" Skid Solution supports larger scale projects to simplify implementation and work seamlessly with our 1500 VDC PV string inverters (250-350kW). We reduce complexity by placing all ...
