-----

Located in Afghanistan, this Anern project is a small solar power station project that supplies electricity to a nearby village. As one of the successful projects completed by Anern, this ...

Overview Biomass energy Geothermal Hydropower Solar power Wind power External links Renewable energy in Afghanistan includes biomass, geothermal, hydropower, solar, and wind power. Afghanistan is a landlocked country surrounded by five other countries. With a population of less than 35 million people, it is one of the lowest energy consuming countries in relation to a global standing. It holds a spot as one of the countries with a smaller ecological footprint. Hydropower is ...
