---

With contributions from industry experts and stakeholders, the report explores the challenges of financing solar projects, grid integration, and the role of both utility-scale and off-grid solutions ...

OverviewSolar potentialPay-as-you-go SolarSolar photovoltaicsSolar thermal powerSee alsoThe whole continent has a long duration of sunshine, and excluding the large areas of tropical rainforests (the Guinean Forests of West Africa and much of the Congo Basin), as the desert and savannah regions of Africa represent Earth's largest cloud-free area. Africa is dominated by clear skies even beyond deserts (ex : Sahara, Namib, Kalahari), however, the regions located along the equator are considerably cloudier than the tropics and subtropics.

The Africa Solar Industry Association (AFSIA) says utility-scale solar projects are under development in 45 of Africa's 54 countries, with more projects pairing solar and storage ...
