What is the power rating of the Antwerp battery project?

The Antwerp battery project has a power rating of 25 MW and capacity of 75 MWh. The installation will be operational by the end of 2024. The project uses 40 Intensium Max High Energy lithium-ion containers supplied by Saft. TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium.

Does totalenergies have a power plant in Belgium?

TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium. TotalEnergies has initiated a battery energy storage project at its Antwerp refinery in Belgium. The installation boasts a power rating of 25 MW and a capacity of 75 MWh, sufficient to meet the daily consumption of nearly 10,000 households.

What is the new Bess project?

The new project will be almost identical as the one launched in March last year and should go live by end-2024. The new BESS will be installed on the site of TotalEnergies' depot in Feluy, Hainaut province, and will consist of 40 Intensium Max High Energy lithium-ion containers.

Why should Engie invest in a Bess project in Belgium?

Belgium's regulatory setup helps make such projects viable. BESS projects in the country benefit from favorable permitting and long-term revenue mechanisms. ENGIE's long-term contract with Elia provides a stable revenue base, easing finance and operation risks.

Apr 4, 2024 · Plans for the new scheme were unveiled during a visit of Belgian Energy Minister Tinne Van der Straeten to TotalEnergies' battery at its Antwerp refinery. The new project will ...

Apr 3, 2024 · Also being deployed at one of TotalEnergies' petrochemicals refineries, this time in Fuloy, Wallonia province, the project will again have ...
