Why does the Bahamas need a solar power system?

This deployment supports the Bahamas' broader energy goals by delivering fast, flexible power that reinforces grid reliability, enables renewable integration, and helps ensure electricity is available when and where it's most needed: Supports tourism and economic activity with dependable power during peak seasons and high-demand periods.

Who owns the power plants in the Bahamas?

The government-owned public Bahamas Electricity Corporation (BEC) has owned the oil-fueled power plants that have supplied the majority of the nation's electricity demands since its authorization under the Electricity Act of 1956.

When did electricity come to the Bahamas?

The Electric Light Act brought electricity to the Bahamas in 1907. The Bahamas Power and Light Company (BPL; formerly Bahamas Electricity Corporation, BEC) supplies approximately 85 percent of the nation's electricity needs and operates on all the nation's major islands except Grand Bahama.
