What is a portable 240V battery box?

Get portable 240V power when and where you need it! This Ardent 1200W Inverter battery box is a camping and mobile power device that allows you to have backup power during an electricity outage.

What is an inverter battery?

The inverter battery and inverter cables are usually connected to the power connection of the home. An inverter battery for home can be any rechargeable or secondary or storage battery (electrochemical power source) like a lead-acid battery, nickel-cadmium battery or Li-ion battery.

Can a 12V LiFePO4 battery work with a 240V battery box?

When equipped with a Giant 12V lithium battery, this inverter battery box converts the DC power in the battery into AC power and can operate 240V electronic devices. The Ardent 1200W Inverter Battery Box gives you reliable 12V/240V power options to make your LiFePO4 battery highly functional.

What is a 1200W inverter ardent battery box?

A 1200W Inverter Ardent Battery Box will instantly turn your AGM or Lithium Deep Cycle Battery into a portable power hub. The Ardent 12V/240V Battery Box gives you reliable power options to make your battery functional. The handy LCD screen makes it easy to see how much battery power you have left.
