Where are Volvo Cars & Vargus launching a new battery manufacturing plant?

Volvo Cars and Vargus portfolio company Northvolt have selected Gothenburg, Sweden, to establish a new battery manufacturing plant. The plant will commence operations in 2025, create up to 3,000 jobs and complement the planned R&D centre that both companies announced in December as part of an investment of approximately SEK 30 billion.

Will Volvo Cars build a battery cell factory in Gothenburg?

Volvo Cars and Northvolt announced the joint battery cell factory in February 2022 and received building permission from the Swedish Land and Environment Court this summer. In August, the city planning committee in Gothenburg also granted building permits for the first construction phase.

Where is Volvo's Novo battery plant?

For Sweden, the Novo plant is the second battery cell production facility after Northvolt's plant in Skellefteå. Volvo Cars and Northvolt first announced plans for the plant in the Gothenburg district of Torslanda, near Volvo's vehicle plant there, in February 2022. At the time, the aim was to have the plant up and running by 2025.
