Is Beijing a suitable location for solar PV generation?

Beijing,China is a suitable location for solar PV generation,with varying average daily energy production per kW of installed solar across different seasons: 5.38 kWh in summer,3.30 kWh in autumn,3.03 kWh in winter,and 5.46 kWh in spring.

How to optimize solar generation in Beijing?

Assuming you can modify the tilt angleof your solar PV panels throughout the year,you can optimize your solar generation in Beijing,China as follows: In Summer,set the angle of your panels to 24°; facing South. In Autumn,tilt panels to 45°; facing South for maximum generation.

Why should you buy solar panels from Sunrise company China?

High-power and high conversionSunrise modules cover the full size of the market and calmly respond to the customized market demand.You can find the solar panels you want in Sunrise company China. Solar cells directly convert light energy into electrical energy through a photoelectric effect or photochemical effect.

Who is the largest solar panel company in the world?

Sunrise,as one of the best solar products suppliers and manufacturers,sells solar energy products in China,and Sunrise is looking forward to being the biggest and the largest solar panel company in the world. Curious about Sunrise solar panels or solar energy products? Contact us and get information now!
