Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Who is Sun's Electric?

Sun's Electric, with over 18 years experience offers design, installation, monitoring, maintenance, and repair of grid tied and off grid solar PV systems by a licensed electrician. In Belize from a concept to a reality, our solar electrical systems are designed and backed by 18 years of industry experience.

Should I buy or have my solar system financed by DFC?

You can buy the system or have it financed by DFC. You decide what works best for you. Sit back and watch as your new solar array comes to life. "Since our system was installed,our utility expense has decreased significantly,which has resulted in more flexibility in our cash flow than we would otherwise have.
