When is 5G available in Germany?

The updated map shows data from April 2024. 5G has been available in Germany since late 2019. The roll-out of the 5G network was initially based primarily on 4G infrastructure, with existing access networks being upgraded or new radio sites constructed.

What is a 5G standalone network?

These have been increasingly connected to the 5G core network, resulting in a mobile communications network that is operated exclusively on the basis of 5G technology and referred to as 5G standalone. By creating a complete 5G network infrastructure and using only 5G frequencies, the advantages of the new 5G technology can be better utilised.

What percentage of Germany has 5G coverage?

Some 92% of Germany receives 5G coverage provided by at least one network operator. The proportion with 5G SA coverage already stands at 90% (as at April 2024). When the first data were collected in October 2021, 5G coverage was just 53%. It has therefore increased by almost 40 percentage points since then.

Aug 27, 2019&nbsp;&#0183;&nbsp;&nbsp;Vodafone Germany announced that its 5G network is now available in Berlin. The first customers in Berlin can now use 5G at the Berlin Adlershof science and technology park. ...
