How is energy supplied in Berlin?

Berlin's urban area is supplied with energy via approx. 900 km of high voltage cable, 10,900 km of medium voltage cable and 23,900 km of low voltage cable. We use this to ensure that every part of Berlin has a secure energy supply. However, not every district has cables at all voltage levels.

Is Germany a 'hot' market for energy storage?

Germany has been identified as one of Europe's 'hottest' markets for energy storage, with a pipeline of around 230GWh of utility-scale BESS currently in the grid connection queue.

Who makes Li-ion energy storage systems?

Parent company Tesvolt makes Li-ion energy storage systems using Samsung SDI battery cells. The manufacturer and system integrator broke ground last April on a BESS factory with 4GWh annual production capacity next door to its existing production plant in Lutherstadt Wittenberg, Saxony-Anhalt, Germany.

Is there a potential for C&I battery systems in Germany?

Image: Tesvolt Energy. There is "huge potential" for commercial and industrial (C&I) battery systems in Germany's wholesale trading markets, according to Tesvolt. Lithium-ion (Li-ion) battery storage system manufacturer Tesvolt has launched a new subsidiary that will sell energy stored in its customers' systems in the power market.

Mar 5, 2025&nbsp;&#0183;&nbsp;&nbsp;Tesvolt Energy claimed its software controls the battery storage systems to achieve the highest revenues with the least intensive operations. Image: Tesvolt Energy. There is ...

1 day ago&nbsp;&#0183;&nbsp;&nbsp;WBS Power is selling Germany's largest combined battery and solar project to Prime Capital. The initiative is an impressive example of the rapid implementation of scalable energy ...

Sep 17, 2025&nbsp;&#0183;&nbsp;&nbsp;Berlin's Terra One raises EUR150 million to lead energy transition in

Europe with battery storage portfolio Terra One, a German ...

Sep 17, 2025&ensp;&#0183;&ensp;Berlin's Terra One raises EUR150 million to lead energy transition in Europe with battery storage portfolio Terra One, a German developer of grid-scale battery storage ...

Dec 3, 2025&ensp;&#0183;&ensp;With the strong and rapid growth in renewable energy production from wind and solar power in Germany, demand for short-term energy storage solutions and grid stability ...

Dec 3, 2025&ensp;&#0183;&ensp;WBS Power GmbH has announced the divestment of Project Jupiter, a significant infrastructure project in Germany, to Prime Capital AG. This project features a 500 MW / 2,000 ...

Berlin has emerged as a hub for sustainable energy innovation, particularly in outdoor energy storage power supply production. With rising global demand for renewable energy integration, ...

Jun 11, 2025&ensp;&#0183;&ensp;After in-depth market analysis and identifying the right moment, Eenergy entered one of Europe's most strategic energy markets with two advanced, ready-to-build BESS ...

Dec 5, 2025&ensp;&#0183;&ensp;WBS acquired the site for the German solar-plus-storage project in 2022. Image: BayWa r.e. Developer WBS Power has sold the 150MW solar, 500MW/2,000MWh battery ...

5 days ago&ensp;&#0183;&ensp;WBS Power sells solar-plus-storage project, plans data centre; Alpiq secures 370MW Germany pipeline; Shell and EQT companies agree Germany BESS toll.

Dec 4, 2025&ensp;&#0183;&ensp;The data center will be colocated with Project Jupiter, a solar and battery energy storage project (BESS) currently under development at the same site. Acquired by WBS ...
