Providing energy security for Brazil includes the following stabilizing options: To be sure, no one solution fits all. Rather, grid planners must assess scenarios and plan with clarity. Would you like to learn more about our Electric Power & Natural Gas Practice Practice?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

The launch of the Panorama of Storage in Brazil marked a breakthrough in technical discussions and symbolized the beginning of a new era for the Brazilian electricity sector. With its eyes on the regulatory framework, the storage market has the potential to be one of the great drivers of the national energy transition.

Dec 9, 2024 · The Brazilian energy storage market will be one of the main pillars of the national plan to update the country's electricity sector. This was one of the insights shared by Absae ...
