Can Great British Energy help reduce energy bills?

Outlining the huge potential of Great British Energy to play a crucial role in ramping up solar deployment, such as its recent announcement to enable around 200 schools and up to 200 hospitals in England to install rooftop solar. This will help to drive down energy bills for schools and hospitals.

Can the UK compete in the global market for solar panels?

While the UK is unlikely to be able to compete in the existing global market for conventional solar panels, there is scope to grow industries producing balance of system components (broadly all components apart from solar panels),⁴⁸ creating opportunities for key industries like steel.

What does the planning and Infrastructure Bill mean for Britain?

"Through our landmark Planning and Infrastructure Bill we're taking bold action to fix the broken planning system, paving the way for us to get Britain building more vital infrastructure so our children and grandchildren can grow up in a more energy secure world.

How many businesses are there in the UK solar industry?

The sector boasts an estimated 17,000 diverse businesses⁷⁵ with multiple trade bodies reflecting varied skills and specialisms. The rapid growth of the UK solar industry offers a generational opportunity to create a wealth of high-quality jobs.

"As we shift to a clean power system more reliant on intermittent wind and solar energy, these new connections will help harness the vast potential of the North Sea and play a ...

Over 75% of the new telecom infrastructure investments in Asia and Africa today include solar energy components, as indicated by a 2024 GSMA report. And over 30% of them ...
