What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

What is the Big Canberra battery transformer?

This stored energy will be used to support our electricity grid. The Big Canberra battery transformer was delivered to the Williamsdale site in early September 2025. The transformer ensures electricity stored in the battery is converted to the correct voltage to be safely supplied to the grid.

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony,plugging in profits from a big battery. ITP Renewables was engaged by EKU Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system,which will begin powering one-third of Canberra households from 2025.

What are Australian companies doing about battery technology?

Australian companies and research institutions are working to develop and manufacture new battery technologies,and explore thermal energy storage,hydrogen energy storage and other technologies that promise to ofer longer duration,lower degradation,and better sustainability.

Feb 7, 2025 · Tesla has chosen an Australian coal town to build a battery service, repair and renewal facility for its vehicle, home-sized and electricity grid-scale battery products.

Feb 2, 2023 · We successfully connected the world"s first battery storage facility to the

grid, a historic milestone for GPG in the renewables ...

Nov 11, 2025 · Overview The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery ...

This steam then drives a turbine connected to a generator, converting mechanical energy into electrical energy. Conveyors play a vital role in coal-fired power stations by ensuring the ...

Feb 7, 2025 · Tesla has chosen an Australian coal town to build a battery service, repair and renewal facility for its vehicle, home-sized and ...

Feb 2, 2023 · We successfully connected the world's first battery storage facility to the grid, a historic milestone for GPG in the renewables business. The ACT Battery project in Australia ...

5 days ago · The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a ...

Renewable energy and advanced energy storage solutions Zest Energy is an Australian company specialising in Renewable Energy, Hydrogen Production and Energy Storage solutions. Zest ...

Oct 6, 2024 · Renewable energy companies are eyeing opportunities in traditional coal-mining towns as part of Australia's electricity transition.

Sep 5, 2025 · A key transformer has arrived at the Big Canberra Battery site in Williamsdale, marking a major step in ACTâEUR(TM)s clean energy infrastructure, expected to be operational in ...

Jul 10, 2024 · This Clean Energy Equipment, Technology and Services Capability Directory offers an overview of Australian innovation, products, and services across solar, wind, wave, energy ...

3 days ago · Eku Energy has closed financing for its 250 MW/500 MWh storage system in Canberra to enhance energy security and support ACT ...

Renewable energy and advanced energy storage solutions Zest Energy is an Australian company specialising in Renewable Energy, Hydrogen ...

5 days ago · The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future.
