What is an IP67 power supply?

Phoenix Contact's IP67 power supplies give engineers flexibility to design applications to meet their specific needs by replacing power supplies located in large, centralized control cabinets with power supplies mounted directly on the machine.

What are the benefits of a trio IP67 power supply?

The TRIO IP67 power supplies reduce or eliminate the need for a separate control enclosure which reduces overall system cost. Mounting the IP67 power supply on or closer to where power is needed reduces cable length and voltage drop that can occur with longer cables.

What is a Sola IP67 power supply?

The Sola IP67 power supplies are designed to withstand the harshest industrial environments and provide you with reliable performance across a wide temperature range. The SCP-X series mount directly on your machine to free you from any design constraints imposed by unnecessary enclosures, fans, and excess wiring.
