Where is Voltalia's new power plant located?

France-based utility Voltalia said Minister of External Trade Olivier Becht and the country's Ambassador to Albania Catherine Suard visited the site south of Tirana. The construction of the system with a nameplate capacity of 140 MW began 15 months ago.

Where is the largest photovoltaic plant in the Western Balkans?

The largest photovoltaic facility in the Western Balkans is counting the days before the start of production. The Karavasta solar power plant will take over the title from Novaci in North Macedonia, which has just been commissioned.

Will Albania bid for a 300 MW solar power auction?

The second contract is for a 100 MW solar power project called Spitalla in Durrës area, near the capital city. Investors are expecting a public call for a 300 MW solar power auction that won't be location-specific. Albania recently saw through the first competitive bidding procedure for wind power.

How many solar power plants are there in Bosnia & Herzegovina?

There are solar power plants under construction in Bosnia and Herzegovina and Kosovo* of 150 MW each in peak capacity. In the wider Balkan region, the recently commissioned Kalyon Karapinar solar power plant in Turkey has a record 1.35 GW in peak capacity or 1 GW in connection terms.

Here's a quirky fact: Albania's first energy storage station factory had an unexpected mascot--a stray dog named Bateri who "supervised" construction. Workers joked that Bateri's ...
