What is Cote d'Ivoire energy?

Cote d'Ivoire Energies (CI-ENERGIES): the state-owned entity responsible for monitoring and managing the electricity system. It also manage projects for which the state acts as the conceding authority.

How many households in Cote d'Ivoire have electricity?

Cote d'Ivoire recorded 375,533 new households with electricity, including 251,133 connections funded by PEPT, a 2014 program which allows households with low incomes to pay for electricity over a 10- year period after an advance payment of 1,000 CFA (about \$2).

Why is Cote d'Ivoire a good country to invest in?

Cote d'Ivoire's existing electricity system is the third largest in West Africa. American companies and their reputation for quality products and service would find strong interest in exports such as smart energy-monitoring devices and renewable-energy-related services.

How many MW does the Ivoirian power sector produce?

Electricity capacity stood at 2,548 Megawatts (MW) with 879 MW for hydroelectric plants and 1,669 MW for thermal power stations. The Ivoirian power sector recorded two new production units of 279 MW. The Ivoirian power sector relies on thermal power plants using natural gas as its main fuel source.
