Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government /MECI. Cyprus's electricity regulator has approved plansto install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

How many energy storage applications have been approved in Cyprus?

The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules approval in 2021. The Cyprus Transmission System Operator has received 13 storage applicationstotaling 224 megawatts capacity, with eight applications processed and five under review.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission(EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

May 26, 2025 · The Apollon PV Park has commissioned a 3.3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus.

May 19, 2025 · Cyprus will install its first large-scale energy storage system within 16 months to integrate renewables, stabilize the grid, and reduce electricity prices.

May 19, 2025 · In an ambitious move towards a sustainable energy future, Cyprus is set to operationalize its first large-scale electricity storage system within the next 16 months. This ...

May 26, 2025 · Cyprus has taken a step toward modernising its energy infrastructure with the commissioning of a 3.3 MWh battery energy ...

Oct 6, 2025 · One of Cyprus's first standalone battery energy storage systems (BESS) has received environmental clearance from the Department of Environment, with the project ...

May 26, 2025 · Cyprus has taken a step toward modernising its energy infrastructure with the commissioning of a 3.3 MWh battery energy storage system (BESS) as part of the Apollon PV ...

Oct 6, 2025 · The Department of Environment of Cyprus issued an approval for what could become one of the country's first battery energy storage systems.

Sep 16, 2025 · An expert says the new Larnaca energy storage unit is a good start but not enough, stressing the need for larger battery systems to stabilise Cyprus' grid.

Mar 4, 2025 · The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules ...

Jun 6, 2025 · Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and ...

Jun 20, 2025 · Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy ...

Jun 6, 2025 · Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, ...

May 19, 2025 · In an ambitious move towards a sustainable energy future, Cyprus is set to operationalize its first large-scale electricity storage ...
