How will China's new-energy storage industry grow by 2027?

Photo: VCG China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation and competitiveness, and achieve high-end, intelligent and green industry growth.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

How can China improve the value chain of new-energy storage manufacturing?

To enhance support for the value chain of relevant manufacturing enterprises and foster a service-oriented manufacturing model, China seeks to drive the extensive adoption of next-generation information technologies, including blockchain, big data, artificial intelligence and 5G, within the new-energy storage manufacturing sector, the plan said.

How many energy storage policies does China have in 2024?

“China has consistently supported the development of critical minerals, and this plan serves as a comprehensive guide for the industry, steering it steadily toward sustainable development,” Lin added. China released 77 energy storage-related policies in 2024, with 77 issued at the national level, the Xinhua News Agency reported.

Nov 27, 2024&nbsp;&#0183;&nbsp;&nbsp;&nbsp;The National-Local Joint New Energy Storage Center, which opened in Baiyun in December 2023, has been continuously gathering enterprises from various sectors of the ...

Oct 12, 2024&nbsp;&#0183;&nbsp;&nbsp;&nbsp;On October 10, the Baiyun industrial plot was successfully transferred, and +2TA was the AB0601025-1 plot in Guangzhou Airport Economic Zone, which will build a new ...

Energy storage industry put on fast track in China At an energy storage station in eastern Chinese city of Nanjing, a total of 88 white battery cartridges with a storage capacity of nearly 200,000 ...

Introducing the Energy Base ESS" latest long-duration energy storage (LDES) solution is redefining energy storage, with ...

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...

Summary: The Dili Low Carbon Energy Storage System Project represents a cutting-edge solution for renewable energy integration and grid stability. This article explores its applications ...

Oct 27, 2023&ensp;&#0183;&ensp;Its power battery shipments and energy storage battery shipments have ranked first in the world for six and two consecutive years, respectively. Data show that Guizhou's ...

Feb 17, 2025&ensp;&#0183;&ensp;Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

Feb 21, 2025&ensp;&#0183;&ensp;A report from Xinhua on Feb. 21st, 2025: Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part ...

1 day ago&ensp;&#0183;&ensp;Megapack is an electrochemical energy storage device that uses lithium batteries, a dominant technical route in the new-type energy storage industry. Tesla's vice-president Tao ...

On Feb. 10, 2025, China's Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

Feb 18, 2025&ensp;&#0183;&ensp;According to an action plan jointly issued by the Ministry of Industry and Information Technology and seven other government organs, the new-type energy storage ...

2 days ago&ensp;&#0183;&ensp;Leveraging Tancheng's industrial base in battery components and storage system integration, the project aims to enhance grid stability by mitigating the intermittency of wind ...

The creation of the National New Energy Storage Innovation Center, combined with the influx of top enterprises and research institutions, is quickly forming an industrial cluster. This project ...

In order to better promote the healthy and orderly development of China's new energy storage and Zhejiang's new energy manufacturing base, and help achieve carbon peak and carbon ...

May 24, 2024&ensp;&#0183;&ensp;Southwest China's Sichuan Province also announced in May that it will build a vanadium-battery energy storage industry base and support the application of such energy ...

Mar 2, 2022&ensp;&#0183;&ensp;China aims to further develop its new energy storage capacity, which is expected to advance from the initial stage of commercialization to large-scale development by 2025, with ...

Feb 17, 2025&ensp;&#0183;&ensp;China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to ...
