---

Yes, you can install solar panels on a tile roof--but the installation process must be handled with care. Lightweight tiles are fragile, and traditional mounting methods can cause ...

Why do you need a permit for solar? Solar permits exist for the same reason buildings permits (or really any permits!) exist: To confirm the system is safe and compliant with local codes.

If you've been considering solar, and you know you're going to be needing a new roof, but losing the great lines of your roof has been holding you back from installing solar panels, then it might ...
