-----  
Should batteries be in a separate room?

Battery rooms are considered hazardous (classified). So you'll need provisions for class I div II at minimum. read over article 500-504. If it is broken,fix it. If it isn't broken,I'll soon fix that. I don't believe there is an NEC requirementthat batteries be in a separate room.

How to install a battery storage cabinet?

Mounting mechanism - they vary depending on whether the battery storage cabinet is a pole mount, wall mount, or floor mount. The mechanism allows you to install the battery box enclosure appropriately. Racks - these systems support batteries in the enclosure. Ideally, the battery rack should be strong.

Do I need a separate room for the battery-pack?

If you do not needto use a separate room for the battery-pack,consider placing them in a room where the H2 concentration can never reach dangerous levels (circulated air,consult your ventilation and fire safety engineers). My advice is free of charge and of respective quality.

What should a battery cabinet have?

Insulation system- insulation is also a safety measure a battery cabinet should have. Grille - it allows for free air flow thereby ensuring efficient cooling. Dual-stage venting system - It is a common technology in electric vehicle battery systems. The first stage will prevent water ingress and equalize pressure.
