Can you donate solar equipment to good sun?

Through the collaboration, EnergyBin members and individual solar owners are invited to support Good Sun through cash and solar equipment donations in exchange for a tax write-off, or offer equipment at deep discounts. Modules acceptable for donation need to be producing at least 50% of their rated power.

Can solar panels be donated to underserved communities?

An estimated 50 thousand functioning solar panels flow to landfill sites every day, while one billion people still lack access to electricity. A new partnership between EnergyBin and Good Sun is hoping to change this and provide a way for solar companies and individuals to donate those still-viable solar panels to underserved communities.

Who is donating a 30kW Solar System?

This year,they are focusing their work with Habitat for Humanityto install rooftop solar PV systems on 40 homes for families in need. In addition,they are poised to donate a 30kW solar system to a northern California watershed protection organization through a business model of non-profits helping non-profits.

What can I do with my new or used solar equipment?

Read more here. Donate your new or used solar equipment, make a cash contribution, volunteer, partner with us. We're always looking for good people to join us on our journey. Contact us to get involved. DEVELOPMENT) Open the file below to read.
