Who is delivering France's largest battery energy storage system?

The news was released by Bloomberg this morning. Leading battery storage developer Harmony Energy is set to deliver France's largest battery energy storage system (BESS)--the Chevir's battery project - using Tesla Megapack technology.

Will a Tesla Megapack deliver France's largest battery energy storage system?

UK-based renewables developer Harmony Energy is looking to deliver France's largest battery energy storage system (BESS)--the Chevir's project - using Tesla Megapack technology. The 100 MW project will mark a significant milestone for the French energy system, being the nation's first large-scale two-hour battery, the developer said.

How will TagEnergy and Banque des territoires support battery projects in France?

Paris, April 8, 2025 - TagEnergy, a leader in clean energy production behind construction of the largest battery energy storage platform in France, and Banque des Territoires, announce a three-year investment partnership agreement to support the financing of several battery projects in France.

What does Harmony Energy do for France?

Harmony Energy CEO for France Andy Symonds said: "Developing and operating vital battery energy storage facilities across France, will lead to enhanced energy security, more affordable energy bills, and the decarbonisation of the grid. We are excited to commence building works on our first project."
