Should Comoros invest in solar energy?

The Comoros has significant potential for the development of photovoltaic energy (**should they invest in it*) given its economic situation. Recently, a French company signed a contract with SONELEC to purchase electricity from solar energy for 26 years.

Is the Comoros transitioning to res?

The Comoros, like Madagascar, Mauritius, and Reunion, has recently focused its efforts on the transition to renewable energy sources (RES) throughout its territory. This paper provides policymakers with a comprehensive overview of the energy situation in the Comoros.

What is the cost of electricity in the Comoros?

The cost of electricity in the Comoros is 298 USD/MWh for the consumer, despite the high production cost of approximately 595 USD/MWh. The population is ready to pay for access to electricity.

What is the environmental impact of production in the Comoros?

The environmental impact of energy production in the Comoros is high, with a Global Warming Potential (GWP) of 0.930 kg CO₂ eq /kWh. At present, the level of production in the Comoros is small overall.
