How much is a fuel cell credit?

Fuel cell property is limited to \$500 for each half kilowatt of capacity. If more than one person lives in the home, the combined credit for all residents can't exceed \$1,667 for each half kilowatt of fuel cell capacity. You may claim the residential clean energy credit for improvements to your main home, whether you own or rent it.

Can a fuel cell credit be used to reduce taxes?

You can carry forward any excess unused credit, though, and apply it to reduce the tax you owe in future years. Do not include interest paid including loan origination fees. The credit has no annual or lifetime dollar limit except for credit limits for fuel cell property.

What is a fuel cell credit & how does it work?

The credit has no annual or lifetime dollar limit except for credit limits for fuel cell property. You can claim the annual credit every year that you install eligible property until the credit begins to phase out in 2033. Fuel cell property is limited to \$500 for each half kilowatt of capacity.

How do I claim a residential energy credit?

File Form 5695, Residential Energy Credits with your tax return to claim the credit. You must claim the credit for the tax year when the property is installed, not merely purchased. For additional instructions on how to claim the credit for residential clean energy follow our step-by-step guide.
