Which countries have financed solar projects?

For instance, the Asian Development Bank (ADB) financed Cambodia's first solar plant, while major projects in Laos, including the region's largest wind power plant, also received assistance from the ADB, as well as the World Bank.

Why is pentagreen Capital partnering with HSBC & BII?

This collaboration underscores the commitment of Pentagreen Capital, BII, and HSBC to driving sustainable energy solutions and supporting the energy transition in Southeast Asia. By providing critical financing, these organizations aim to unlock significant renewable energy capacity and contribute to the region's decarbonization efforts.

What is pentagreen's partnership with Indonesia & the Philippines?

Marat Zapparov, CEO of Pentagreen Capital, described the initiative as a landmark partnership that will help scale up clean energy investments in the region. He noted that Indonesia and the Philippines were identified as initial target markets due to their strong renewable energy potential and favorable regulatory environments.

How will energy demand grow in Southeast Asia in 2035?

According to the International Energy Agency, electricity demand in Southeast Asia is set to grow at an annual rate of 4% to 2035. Clean energy sources such as wind and solar, alongside modern bioenergy and geothermal power, are projected to meet more than a third of this growth in energy demand in the region by 2035.

Pentagreen Capital and British International Investment (BII) have teamed up in a joint USD80 million financing initiative aimed at accelerating the rollout of utility-scale solar and ...
