What is a 42U server rack cabinet?

Our 42U server rack cabinet has a glass front and perforated French rear doors to facilitate airflow. Quick-release, lockable side panels allow for easy access, while increased depth allows for cable management and PDU installation behind equipment.

How big is a server rack?

At 46 inches (1168 millimeters) deep, this rack can accommodate large servers and other equipment of equivalent mass. The rack's 800-millimeter (31.5-inch) width provides side channels for mounting accessories, more room for routing cables and increased airflow to help keep equipment cool.

Is a 42U server rack cabinet HIPAA compliant?

This rack cabinet is EIA/ECA-310-E, HIPAA, and PCI compliant, measuring 35 inches in length, 23.6 inches in width, and 78.75 inches in height. Our 42U server rack cabinet has a glass front and perforated French rear doors to facilitate airflow.

What is a 42U Navepoint commercial server cabinet?

The 42U NavePoint Commercial Series network server cabinet has capacity and quality --everything it takes to get the job done right for your high-density applications that rack and store a range of 19-inch equipment like servers, patch panels, PDUs, routers, and more.
