-----  
What is the Hanoi Metro project?

The metro project is part of the Vietnam Ministry of Transport's master plan, which aims to reduce the use of private transport and enhance the urban environment. The feasibility study for a Hanoi metro pilot route /line was completed in October 2005.

When will the Hanoi Metro Line be completed?

But the journey doesn't stop there. The underground section, which will extend the line by four more stations, kicked off its construction on 30th July 2024. Once completed, this will connect directly to Hanoi Railway Station, integrating the metro line seamlessly into the city's transport network.

What is Hanoi Metro Line 3?

The ultimate goal of Hanoi Metro Line 3 is to alleviate the city's chronic traffic congestion and provide a cleaner, greener transportation alternative. Once fully operational, the metro line is expected to carry up to 90 million passengers annually, boosting the use of public transport from 15% to an ambitious 40%.

How many stations are there in Hanoi?

This section, stretching approximately 8 km from Nhon to Cau Giay, encompasses eight stations designed to serve the bustling capital. It's set to provide an environmentally friendly mode of transportation that promises to reduce congestion and transform daily commutes in Hanoi.
