Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

What types of storage cabinets are available for lithium-ion batteries?

Various cabinet sizes and equipment variants are available for the safe storage of lithium-ion batteries. There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries.

Do Ion-line storage cabinets have fire protection?

Discover the ION-LINE storage cabinets. Charging lithium batteries outside working hours and unattended can pose an increased fire risk. For this reason, the ION-LINE charging cabinets are equipped with 90-minute fire protection from the inside to the outside and vice versa.

Are Ion-line cabinets fire resistant?

The ION-LINE cabinet models are specifically designed to meet the highest safety standards. They offer certified fire protection with a 90-minute fire resistance rating from the inside out and outside in. These cabinets effectively prevent a fire from spreading from the outside to the batteries stored inside.
