What should a solar business quote include?

A solar business quotation should contain client information, the work description, an entire cost analysis, activities incorporated and excluded, materials to be added, contract terms, a date for signing and approval, and a place for signing and authorization. Download our Free Solar Quote Template in Excel or Word. No registration required.

What is a solar quotation form?

Solar Quotation Form: This form enables gathering essential data from clients about their solar system needs. It is fully customizable using a user-friendly drag-and-drop editor. Simple Solar CRM: Once client information is submitted through the quotation form, it is integrated into the Solar CRM system.

What should I consider when creating a solar quote?

When you are creating a solar quote you need to carefully consider all the costs you will incur to make the sale plus your mark-up, which includes not only the direct cost of the product or service itself but also incidental costs such as cost of transport or commuting. Is there a prescribed statutory solar quotation template?

Is there a statutory template for creating a solar quotation?

While there is no statutory template for creating a solar quotation, it is strongly suggested that you include all the details listed above when you are creating a quotation. Create solar quotation online or download this fully customizable blank solar quotation template in Word, Excel or PDF.
