What is a hybrid inverter?

A hybrid inverter is essentially two inverters in one. It combines a solar inverter and a battery inverter into one simple unit. These advanced inverters use solar energy to power your home, charge a battery, or send excess energy into the electricity grid. Most hybrid inverters can also provide emergency backup power during a blackout.

Which hybrid solar inverter is best?

Thanks to 10-year standard warranties and global service centers, Huawei comfortably sits in the top 10 hybrid solar inverter companies roster. Solis knows how to stretch a dollar. Their RHI-3P (5-10)K-HS hybrid solar inverter range chugs happily at 97.5 % efficiency and tolerates scorching rooftops up to 60 °C.

Who makes Sungrow hybrid inverters?

Founded in 1997 in Hefei, China, Sungrow is among the largest manufacturers of solar inverters in the world. The commitment of the company to reducing the carbon footprint and advancement of renewable energy is marked in its high-performance solar hybrid inverters. The durability and efficiency of Sungrow hybrid inverters are commendable.

How do I choose the best hybrid inverter?

When choosing the best hybrid inverters, consider the following features: Power Rating: Ensure the inverter's capacity matches your solar system size and energy consumption needs. Battery Compatibility: Check if the inverter is compatible with the type of battery you plan to use (e.g., lithium-ion, lead-acid).
