-----  
What are NYSERDA energy storage incentives?

NYSERDA's Residential and Retail Energy Storage Incentives are structured as fixed-rate incentives based on the storage systems capacity, measured in kilowatt hours (kWh). These incentives are available on a first-come, first-served basis.

Are battery storage projects eligible for energy storage incentives?

The Program Manual [PDF] provides a full list of project eligibility and requirements. For battery storage systems above five MW of AC power, projects could be eligible for incentives through the Bulk Energy Storage Program. Additional details on both the Residential and Retail Energy Storage Incentive are available in the program manual [PDF].

How are incentives provided for residential and retail energy storage projects?

Incentives for all residential and retail storage projects are provided through a network of participating contractors approved under the Residential and Retail Energy Storage Incentive program who contract directly with the customer. The program breaks out incentives geographically by sector and region in the Megawatt hour (MWh) Block Dashboards.

Where can I find information about energy storage incentives?

Incentive details will be available on the Residential Energy Storage Incentive Dashboard and Retail Energy Storage Incentive Dashboard. The Residential Energy Storage Incentives are available for contractors' installing storage on a new or existing home in New York State. Incentives are available for up to 25 kWh of storage capacity.

A: Yes, when properly anchored and protected Q: How long does installation take? A: 2-6 weeks depending on system complexity This content is optimized for search terms: industrial battery ...
