How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

Why is China a leader in Photovoltaic Glass Manufacturing?

As the global demand for clean energy continues to rise, China has solidified its position as a leader in photovoltaic (PV) glass manufacturing. The country's manufacturers are renowned for their innovation, advanced production techniques, and ability to meet the growing needs of the solar industry. What Is Photovoltaic Smart Glass?

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.

What is the market size of Solar Photovoltaic Glass in 2024?

By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to post a 19.70% CAGR to 2030. By solar technology, crystalline silicon held 91% share of the solar photovoltaic glass market size in 2024, whereas CIGS cells are expected to grow at 23.61% CAGR between 2025 and 2030.

China's Ministry of Industry and Information Technology has revealed that the country's solar glass capacity reached 64,000 metric tons (MT) per day across 348 production lines from 38 ...

Solar Photovoltaic Glass Market in Asia-Pacific Solar Photovoltaic Glass Market in China Solar Photovoltaic Glass Market in Japan Solar Photovoltaic Glass Market in North America Solar Photovoltaic Glass Market in

United StatesSolar Photovoltaic Glass Market in EuropeSolar Photovoltaic Glass Market in GermanySolar Photovoltaic Glass Market in United KingdomSolar Photovoltaic Glass Market in South AmericaSolar Photovoltaic Glass Market in Middle East & AfricaThe Asia-Pacific region dominates the global solar photovoltaic glass market with significant manufacturing capabilities and installations across major economies. China leads the manufacturing landscape, while Japan demonstrates strong technological advancement in the sector. India has been actively pushing toward...See more on mordorintelligence neiaap Chinese PV Industry Brief: Solar glass capacity hits 64,000 MT per dayChina's Ministry of Industry and Information Technology has revealed that the country's solar glass capacity reached 64,000 metric tons (MT) per day across 348 production lines from 38 ...

Oct 22, 2025 · The Solar Photovoltaic Glass Market is expected to reach 32.10 million tons in 2025 and grow at a CAGR of 18.42% to reach 74.75 million tons by 2030. Xinyi Solar Holdings ...

Sep 5, 2024 · Facilities that would normally produce 12,000 tons per day are now inactive. Solar glass businesses and their industry associations recently held a series of meetings to discuss ...

Oct 17, 2025 · The company produces ultra-clear patterned solar glass, anti-reflective coating glass, and back glass, with six major production bases in China and Malaysia, boasting a total ...

Oct 17, 2025 · The company produces ultra-clear patterned solar glass, anti-reflective coating glass, and back glass, with six major production bases ...

Oct 8, 2022 · The Chinese government has revealed that the nation's solar glass capacity has reached 64,000 metric tons per day, while State Grid ...

Jul 10, 2023 · On the supply side, recent statistics from SCI99 indicate that the current domestic production capacity of photovoltaic glass stands at 88,930 tons per day. However, the new ...

Oct 8, 2022 · The Chinese government has revealed that the nation's solar glass capacity has reached 64,000 metric tons per day, while State Grid Corp. of China has announced plans to ...

Feb 19, 2025 · Recently, Borosil announced a 50% expansion of its manufacturing capacity of solar glass from 1,000 to 1,500 tons a day. In ...

Feb 19, 2025 · Recently, Borosil announced a 50% expansion of its manufacturing capacity of solar glass from 1,000 to 1,500 tons a day. In November 2024, Borosil reported a net loss of ...

Mar 12, 2024 · The glass capacity in 2021, 2022, and 2023 was 46,000, 81,000, and 105,000 tons, with a year-on-year increase of 35+%, 70+%, and 30+%. As of now, the domestic glass ...
