What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

How much does a battery replacement cost?

For instance, battery replacement in a Prius costs about \$2,300 - \$2,600, while in Tesla, it could cost tens of thousands. Since EV adoption just took root around 2017, it's still rare to hear of battery replacements in 2025. As such, there isn't much information out there about the costs of replacement.

Are lithium ion battery cabinets safe?

Lithium-ion battery cabinets are essential for safely storing and charging modern batteries used in power tools, gardening equipment, and electric bicycles. They protect lives, property, and operations with verified safety- VDMA 24994:2024-08. Advantages of the VDMA 24994 Standard.
