What is Huawei power-m?

Huawei's home power solutions, whether for battery storage or getting the entire home off grid, provide safe and efficient ways for African households to harness renewable resources. Power-M is Huawei's advanced digital back-up power solution that is geared towards meeting power supply needs of modern homes.

What is Huawei Digital Power Solutions?

Huawei Digital Power Solutions offer a range of technologies suited to African conditions including energy storage systems, electric vehicle charging, uninterruptible power supplies (UPS), data centre facilities and critical power sectors.

How does Huawei help businesses reduce energy costs?

With advanced hybrid solar technology, uninterruptible power supplies (UPS) and energy storage systems, Huawei helps businesses lower energy costs, reduce dependence on the grid, and mitigate the impact of power instability and fluctuations.

Why should you choose Huawei for your data centre power needs?

Whatever your data centre power needs Huawei offers a range of solutions to suit. Huawei adheres to the "modular +intelligent" design concept and reshapes the architecture of cooling, Operations and Maintenance (O&M), and power supply to create next-generation, low-carbon data centres.
