How much does a Huawei solar battery cost in Australia?

Chinese giant Huawei has entered Australia's residential solar battery market with its home energy storage system, the Luna2000. The lithium-iron phosphate 5kWh cells have a modular design and are scalable to 30kWh. Huawei is banking on 10 kWh system capacities being most popular, telling pv magazine Australia they will retail for under AU\$10,000.

Which solar storage system should I use with a Huawei inverter?

The perfect solar storage solution to couple with any Huawei inverter, the Huawei LUNA is here. Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs.

Is Huawei a good energy company?

Their systems and apps are all designed to work alongside one another, making Huawei a fantastic company to go with if you are looking for a complete energy solution. As of October 2020, Solar is now officially cheaper than coal and is set to stay that way. Going forward expect most large scale energy plants that get built to be solar plants.

Which battery should I use with a Huawei inverter?

Huawei batteries are the perfect choice to pair with any Huawei inverter. The Huawei LUNA battery stands out amongst its peers for its efficiency and optimal levels of production and power retention. If you are looking for a high-quality solar energy storage system, then it's just a fact that you should be considering Huawei.
