What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP- outdoor cabinet?

An IP- outdoor cabinet is a precision-designed enclosure made of stainless steel or SMC material. It supports optic fibre distribution, features 3-point locking, and can accommodate 24 to 192 cores.

What does IP55 rating mean for an outdoor telecom cabinet?

The IP55 40U galvanized steel outdoor telecom cabinet provides protection from dust, rain, snow and dripping water. IP55 rating indicates the level of sealing effectiveness of electrical enclosures against intrusion from foreign bodies (like dust and water).

The Saipwell NEMA3R PLC Network Metal Cabinet is a rugged, industrial-grade distribution box designed for outdoor and indoor power distribution needs. Built with corrosion-resistant steel ...
