Can India expand its Solar Exports?

This shift in global trade dynamics, along with the rising demand for solar panels worldwide, has provided India with new avenues to expand its solar exports. However, China's dominance in solar manufacturing remains a challenge for Indian exporters, given the country's ability to produce solar cells and modules at lower costs.

Which country exports the most solar products to India?

China remained the dominant supplier of solar products to India, accounting for 78.1%. Vietnam was the second-largest supplier, with a 9.8% share, followed by Hong Kong at 5.6%. Other suppliers include Indonesia, the U.S., and Thailand, which exported 4%, 1.3%, and 0.8% of solar products to India, respectively.

How much solar energy did India import in Q1 2025?

India imported \$1.3 billion (~INR112.8 billion) worth of solar cells and modules in Q1 2025, representing a 35.1% year-over-year (YoY) decrease from \$2 billion (~INR166.9 billion). Solar modules accounted for 62.4% of the quarter's solar imports, while solar cells accounted for the remaining 37.6%.

Does India export photovoltaic modules?

The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which accounted for more than 97% of India's exports in both FY2023 and FY2024.

Nov 11, 2024 · ; The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which ...

Jun 16, 2025 · ; The U.S. was the primary destination for Indian solar cell and module exports, accounting for 99.5% of the total in Q1 2025. India ...

Nov 11, 2024 · The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and ...

Nov 11, 2024 · India's solar photovoltaic (PV) module exports have seen a remarkable surge, increasing nearly 23-fold from FY22 to FY24, according to a report by the Institute for Energy ...

Apr 23, 2025 · With tariffs as high as 3,521% slapped on solar imports from Cambodia, Malaysia, Thailand, and Vietnam--countries that supplied ~77% of U.S. solar modules last year--India ...

Dec 1, 2025 · India's solar manufacturing industry is witnessing a major boost as module and cell exports surged sharply in Q3 and Q4 of 2025, driven by rising global demand for non-Chinese ...

Jun 17, 2025 · India's solar exports in Q1 2025 have experienced an impressive 26.1% quarter-over-quarter growth, while imports have surged by an even more dramatic 80.2%. These ...

Source:solarquarter India has become a significant player in the global solar photovoltaic (PV) market, driven by its abundant sunlight and commitment to renewable energy. The country's ...

2 days ago · India's solar export market is experiencing a dynamic phase of growth, with the value of exports surging by an impressive 65.2% year-over-year in the third quarter of 2025, ...

Apr 10, 2025 · India's solar exports vis a vis other countries could still continue to remain competitive, though the margins could take a marginal hit.

Jun 16, 2025 · The U.S. was the primary destination for Indian solar cell and module exports, accounting for 99.5% of the total in Q1 2025. India imported \$1.3 billion (~INR112.8 billion) worth ...

Jun 17, 2025 · India's solar exports in Q1 2025 have experienced an impressive 26.1% quarter-over-quarter growth, while imports have surged ...

Apr 10, 2025 · India's solar exports vis a vis other countries could still continue to remain competitive, though the margins could take a marginal ...

Explore Indian Solar Container export data with HS codes, pricing, ports, and a verified list of Solar Container exporters and suppliers from India with complete shipment insights.
