Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya,Indonesia Sentinel -- Surabaya,the capital of East Java,has been selected as a pilot city for energy transitionand efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16,2025,under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Can a battery energy storage system be used in Indonesia?

A Battery Energy Storage System (BESS) deployment can facilitate the integration of high levels of variable renewable energy while improving power reliability and quality, but the diversity and complexity of the market is considerable and needs to be understood by BESS suppliers considering entry to Indonesia.

Does Indonesia need more energy storage capacity?

(Hartatik) Jakarta--A report by the Institute for Essential Services Reform (IESR) highlights that policies that encourage the growth of ESS in Indonesia must support its development. The report, titled Powering the Future, estimates that Indonesia needs to have at least 60.2 GW of energy storage capacity by 2060 to support the energy transition.

How much biofuel is required in Indonesia?

Since 2018, Indonesia has required 20% biofuel (B20) to be used in all fuel sources to minimize export and support the market. In late 2019, the government announced that in 2020 the new mandate would require a 30% blend. The government has a plan to conduct testing for biodiesel with a 40% mix in 2020.⁶¹

Aug 12, 2024 · A Battery Energy Storage System (BESS) deployment can facilitate the integration of high levels of variable renewable energy while ...

Apr 19, 2025··Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency ...

Looking for reliable energy storage solutions? Surabaya, Indonesia's industrial hub, has emerged as a strategic export center for high-performance energy storage cabinets. This guide explores ...

Summary: The Surabaya Energy Storage Project tender represents a critical opportunity for renewable energy integration in East Java. This article explores bidding strategies, market ...

With the booming development of the global energy storage industry, the Southeast Asia region, leveraging its unique energy demands and proactive policy environment, has emerged as a ...

Oct 17, 2024 · "The development of solar energy in Indonesia requires regulatory clarity, infrastructure support, and technological innovation to ...

Summary: As Surabaya accelerates its transition to sustainable energy, the city's power storage project bidding offers critical opportunities for global suppliers. This article explores market ...

Apr 18, 2025 · Surabaya City, East Java, has officially started the implementation of decarbonization of the building sector through the Sustainable Energy Transition in Indonesia ...

Sep 1, 2025 · This study examines the strategic challenges and opportunities in scaling energy storage systems across the archipelago. Key barriers include limited domestic manufacturing ...

Historical Data and Forecast of Indonesia Energy Storage Market Revenues & Volume By Commercial for the Period 2021- 2031 Historical Data and Forecast of Indonesia Energy ...

Oct 17, 2024 · "The development of solar energy in Indonesia requires regulatory clarity, infrastructure support, and technological innovation to optimize its utilization," Alvin explained. ...

Jun 30, 2025 · U.S. logistics providers, digital technology, and energy security innovators particularly in automation, LNG shipping, and Carbon Capture, Utilization, and Storage ...

Feb 4, 2023 · This energy sector assessment, strategy, and road map (ASR) updates the state of the energy sector in the Republic of Indonesia since the 2016 publication of Indonesia Energy ...

Apr 19, 2025 · Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially ...
