What are the top ranked server rack manufacturers?

Also, please take a look at the list of 48 server rack manufacturers and their company rankings. Here are the top-ranked server rack companies as of December, 2025: 1. Panduit, 2. Bud Industries, Inc., 3. Data Center Resources LLC.. What Is a Server Rack? What Is a Server Rack?

What equipment is in a server rack?

The server rack shelves house equipment, such as power supply units, servers, storage devices, routers, and switches. Server racks are devices used to enable efficient equipment management in terms of network security and system operation and management. Equipment in server racks is cooled by cooling fans and air conditioning units.

What is a server rack?

Server racks come in several standards. A rack is a storage cabinet that holds equipment, and equipment that is shaped to fit into that box is called a rack-mounted server. The standard width of racks in common use today is 19 inches (482.6 mm), as defined by the U.S. Electronic Industries Association.
