Does Canberra have battery storage?

Battery storage for residential solar energy is becoming increasingly popular in Australia - including in Canberra, ACT. If you're a Canberra resident looking to install a battery storage system for your home, what are the main things that you need to consider?

Is Canberra building a big battery in Williamsdale?

The ACT Government is building a big battery in Williamsdale. Construction has begun, in partnership with Eku Energy. This project is part of larger efforts to make Canberra a cleaner, greener city. Construction has begun the Williamsdale Battery Energy Storage System (BESS).

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.

The objective was to expand renewable energy storage and future-proof Canberra's energy supply. The project aims to deliver the next stage of ...

Jul 26, 2025 · The cost of power storage infrastructure, such as battery and pumped hydro projects, has been a hurdle for achieving renewable energy goals. However, a new study from ...
