Will Panama be a model for energy storage in Central America?

Panama made history with its 2024 tender for 500 MW of renewables plus storage, aiming for 120-150 MW of BESS deployment. This represents the first market-based approach to energy storage in Central America, potentially serving as a model for the region.

Where is the largest C&I battery installation in Latin America?

Local developers like Quartux and ON Energy have installed dozens of MWh of behind-the-meter batteries at hotels, resorts, and factories in tourist regions like Cancun. A 25 MWh C&I battery by Quartux in Cancun is cited as the largest C&I installation in Latin America.

Is Colombia launching a solar storage tender?

Colombia's Ministry of Energy and Mines is considering launching tenders for storage co-located with solar and wind farms in La Guajira, a region with high renewable resource potential but weak grid infrastructure. Argentina entered the BESS race with the "Alma GBA" tender for 500 MW of storage, launched in early 2025 and worth \$500 million.

Who invests in energy storage in Chile?

The utility scale segment dominates Chile's energy storage landscape. Large power generation companies are the primary investors in BESS, usually pairing them with renewable plants. Key players include Engie, AES Andes (AES), Enel, and Colbun, who are deploying batteries to provide firm capacity and ancillary services.

The energy storage systems market in Latin America is expected to reach a projected revenue of US\$ 3,486.5 million by 2030. A compound annual growth rate of 9.4% is expected of Latin ...
