Is Portugal a good place to invest in lithium-ion batteries?

In the battery technology industry, Portugal has the potential for further growth in the future, especially in the field of lithium-ion batteries and energy storage. Portugal is one of the countries with the largest lithium reserves in Europe.

Will China build a lithium battery factory for cars?

The project to build a lithium battery factory for cars owned by the Chinese company CALB in Sines, with 15 GWh (Gigawatts/hour) of energy storage, is launched...

Where will the new lithium battery factory be built?

In a statement sent to the Lusa news agency, the Chinese company, a global leader in the production of lithium-ion batteries, announced that the project for the construction of the latest generation lithium battery factory will be launched on Monday at the Técnico Innovation Center, in Lisbon.

How many jobs will a lithium-ion battery factory create?

According to CALB, the factory will create 1,800 direct jobs. Portugal has some of the world's largest reserves of lithium, a key ingredient in the batteries that power electric cars: an estimated 60,000 tonnes, according to the US Geological Survey.
