-----  
What is the UK's largest battery energy storage system?

National Grid has energised what is being billed as the UK's largest battery energy storage system (BESS), connecting the 300MW Thurrock Storage project to its transmission network at Tilbury substation in Essex.

Will Statera Energy energise the UK's largest battery energy storage system?

Statera Energy has officially energised the UK's largest battery energy storage system (BESS) - the 300MW Thurrock Storage site - marking a significant milestone for the country's energy transition.

Where is the Warley battery energy storage project located?

The Warley Battery Energy Storage project is located at Upminster on the outskirts of East London. The project is on National Grid land adjacent to its 275kV Warley substation. It will connect directly to the London electricity distribution circuit and serve to balance supply and demand in London. Biodiversity benefits

Why is Thurrock storage partnering with national grid?

National Grid Electricity Transmission director of customer and network development John Twomey said: "Battery storage plays a vital role in Britain's clean energy transition. Connecting Thurrock Storage, the UK's biggest battery, to our transmission network marks a significant step on that journey.

Aug 22, 2025&nbsp;&#0183;&nbsp;&nbsp;National Grid has officially connected the UK's largest battery energy storage system (BESS) to its high-voltage transmission network at Tilbury substation in Essex, ...

Apr 15, 2025&nbsp;&#0183;&nbsp;&nbsp;GRIDSERVE and UK Power Networks have connected a new Battery Energy Storage System (BESS) to the electricity network, supporting EV charging at London Gatwick ...
