What is aquaculture equipment market size?

Aquaculture Equipment Market size valued at USD 135 billion in 2022 and is estimated to grow at a CAGR of 6% from 2023 to 2032. The cultivation of aquatic vegetation, aquatic animals, and other aquatic species is known as aquaculture. In aquatic habitats, organisms are bred, raised, and harvested.

How aquaculture equipment market will grow in the near future?

Thus, the increasing trade of seafood increases the growth of the aquaculture industries, and this will result in increasing demand for aquaculture equipment. This is expected to drive the aquaculture equipment market in the near future. Opportunities Rising government measures to boost aquaculture

Which country has the most aquaculture equipment market share in 2022?

U.S. dominated the North American region with majority aquaculture equipment market share and a revenue of USD 6 billion in 2022. Millions of people every day all over the world eat food produced by the aquaculture and fishing industries. The industry both creates food and guards against extinction species.

Is aquaculture a solution to overfishing?

With 90% of the world's wild 'fish stocks' fully fished, overexploited, or depleted, aquaculture is on the increase; yet, whether aquaculture is a solution to overfishing remains debatable. Overfishing is on the rise as seafood has become one of the most traded food commodities on the planet.
