What is a 4fold container?

This container is called the 4FOLD. HCI claims an amazing 75% saving in space as four 4FOLD containers, when stacked, take only the space of a single conventional rigid container. This would mean less cost on transportation of empty containers, their storage, and other associated costs.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

Are HCI containers collapsible?

While the containers from HCI are of the collapsible type, those from Staxxon fold vertically, in the company's words 'accordion style'. To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack.

Which companies are coming out with foldable containers?

Staxxon is another company that is coming out with foldable containers. This year, the US-based company operating out of New Jersey began trials of their foldable containers collaborating with freight vessels, road transport operators, and railcar companies.

Enter The Foldable Container How Does A Foldable Container Work? The Downside of Foldable Containers While the containers from HCI are of the collapsible type, those from Staxxon fold vertically, in the company's words "accordion style". To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Fou... See more on [marineinsight conexbox Storage Containers for Sale Marshall](#)
