What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

What is a battery swap station?

Designed for fleet management, shared mobility services, and personal use, battery swap stations are a sustainable alternative to traditional charging methods. With a focus on smart technology, these stations offer automated, eco-friendly, and scalable solutions that support the growing demand for green transportation.

How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

Why do you need an electric motorcycle battery swap cabinet?

The electric motorcycle battery swap cabinet has been the perfect fit. Its modular design allows us to add more cabinets as our fleet expands, without requiring any major infrastructure changes. This scalability feature has saved us significant costs and allowed us to easily accommodate our growing number of electric motorcycles.

5G BS and battery swapping cabinets are integrated as a joint dispatch system. Optimal dispatch model is established for cost efficiency and supply-demand balance. Real ...
