-----  
Why are photovoltaic module import shipments not published?

U.S. shipments and sales to the original equipment manufacturer (OEM) for resale and export shipments are not published for certain months to protect individual company data. Table 7. Photovoltaic module import shipments by country Imports at the national level are included in Table 6.

Do I need to report a monthly photovoltaic module shipment report?

Beginning in January 2017, we required some of the respondents for the annual survey Form EIA-63B, Photovoltaic Module Shipments Report, to report monthly data. The subset of respondents now must report monthly accounts for about 90% of photovoltaic (PV) activity in the United States, based on 2021 data.

Which countries import the most photovoltaic modules?

Factories in four Southeast Asian countries -- Vietnam, Thailand, Malaysia and Cambodia-- accounted for 13 GW or 87.5% of the first quarter's total 14.8 GW of photovoltaic (PV) module imports.

What are the tables in the photovoltaic module report?

The tables in this report are: Table 1. U.S. photovoltaic industry status Table 2. Value and average value of photovoltaic module shipments Refer to Table 3. Refer to Table 3. Table 3. Monthly photovoltaic module shipments This table includes the total shipments, values, and average values of module shipments by year and month.

For more detailed PV insights and analysis of the North American solar market, including emerging trends and future projections, refer to the full Sinovoltaics Solar Supply Chain Map ...

India is one such alternative supplier, and it too is seeking to diversify its solar PV supply chain. Already, Indian solar module exports have increased by more than five times ...
