Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

Why should we invest in EV battery recycling in Norway?

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, Hydrovolt, it will play a pivotal role in optimizing energy utilization and unlocking new revenue streams.

What is the eBox energy storage system?

eBOX is a compact 7ft Energy Storage System designed to work both off-grid or connected to different power sources. The eBOX was developed by ZEM in close collaboration with Moen Marin and Nordic Batteries to hybridize fishing vessels. Its compact size enables implementation in various environments without compromising capacity.

What is included in a battery storage container?

In addition to batteries, the container includes HMI, control systems, DC link cabinet, converters, connection cabinets and a transformer. The system is easily scalable and adaptable to different use cases and for larger containers as well when higher energy storage capacity is required.
